Mr. Gary Baughman  
Hazardous Waste Facilities Unit Leader  
Colorado Department of Health  
4210 East 11th Avenue  
Denver, Colorado 80220

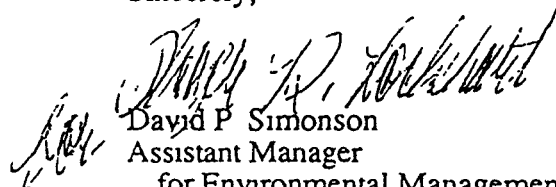

Gentlemen

This correspondence is in partial response to your letter dated July 23,-1991, regarding notification of potential suspected releases from multiple sites at Rocky Flats Plant We are forwarding a Preliminary Assessment which we believe substantially addresses your desire for information on the potential sites It does not, however, fully meet all items requested in your letter, and modifications are underway to provide all requested information consistent with the Historical Release Report requirements.

We apologize for the confusion regarding the urgency of providing this information resulting from our verbal conversations As you can see by review of the enclosure, we have attempted to give a very clear and complete assessment. Coordination to take the pictures, complete the photo processing and organize the material required considerable time and effort. We hope your review of the enclosure will convince you that Rocky Flats has not been ignoring this issue and the need to notify you

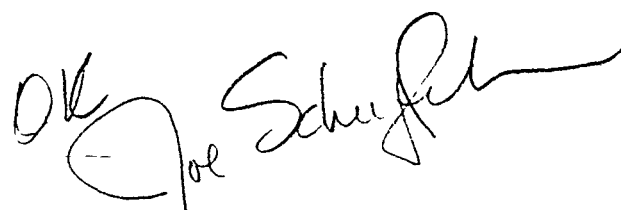

We expect to provide the additional information on these sites, to fully satisfy you letter, by August 16, 1991. Please contact Bruce Thatcher (966-3532) or Frazer Lockhart (966-7846) if you have additional questions

Sincerely,

  
David P Simonson  
Assistant Manager  
for Environmental Management
